Profile

Full-stack developer specialised in React and NodeJS. I have a track record of designing and developing responsive and engaging web applications, API integration and development, and database design.

I have a passion for both personal growth and software development. I am ready to apply my passion for software development to a talented engineering team that is solving problems at scale.

Experience

Frontend Web Developer

Intavalto Renewable Energy & Technology Solutions FCT, Abuja, Nigeria.

June 2017 – April 2018

- Dispensing technical services
- Refactoring code to meet the latest development requirements and browser compatibility
- Website and database management developing
- Worked closely with programmers and clients to meet project requirements, goals and desired functionalities

Full-stack Developer

Freelance

April 2018 – Present

- Delivered high-quality and responsive code into production using modern libraries and frameworks.
- Developed features to enhance user experience
- Designed and implemented web applications along with 3rd-party software integrations as a web team liaison for all inter-departmental and customer-facing projects.
- Tested React components using Jest.
- Consulted for startups and refactored code to implement latest technologies for optimisation and general web presentation, while also ensuring browser compatibility.

Education

Bachelor of Engineering

in Chemical Engineering (2011-2016 // Landmark University, Kwara State, Nigeria.)
